

Name: Helene Felice

Affiliation: CEA Paris Saclay

Position: Research Engineer
Magnet Lab Deputy head

Previous Positions: Staff scientist / Section Leader at CERN
Research Engineer at CEA Paris Saclay
Research Scientist, Lawrence Berkeley National Lab
LARP Toohig Fellow, Lawrence Berkeley National Lab

Education: Ph.D. Institut National Polytechnique de Lorraine, France

Research Interests/Areas of Expertise: Superconducting magnet technology and systems, Nb₃Sn accelerator magnets

Publications: More than 80 publications

Approximate Number of Years in Applied Superconductivity: 20

Previous ASC Service: Technical Program co-chair ASC 2024
Program committee Member ASC 2018
ASC short course instructor ASC 2012
Technical Editor in 2009
Session Chair since 2007

Service to Related Conferences: Program committee member MT29
Short course lecturer MT28
Session chair since 2007

Honors and Awards:
2019 Prix Jean-Louis Laclare, French Physics Society
2009 Outstanding Performance Award, Lawrence Berkeley National Laboratory
