

Name:	Ramesh Gupta
Affiliation:	Superconducting Magnet Division Brookhaven National Laboratory
Position:	Senior Scientist
Previous Positions:	Staff Scientist Lawrence Berkeley National Laboratory Scientific Officer Variable Energy Cyclotron Center, India
Education:	Ph.D. Brookhaven National Laboratory and University of Rajasthan, India, 1996 Title: Improving the Design and Analysis of Superconducting Magnets for Particle Accelerators
Research Interests/ Areas of Expertise:	Superconducting magnets, HTS magnets, Innovative magnet designs and technologies
Publications:	More than 100 scientific papers and 200 presentations.
Approximate Number of Years in Applied Superconductivity:	42
Membership in Professional Societies:	IEEE, JSAP, IEICE, IEE of Japan, Cryogenics and Superconductivity Society of Japan
Previous ASC Service:	Large Scale Program Committee
Service to Related Conferences:	Technical Editor at several ASC, EUCAS and International Magnet Technology Conferences Gave courses on superconducting magnet technology at several US Particle Accelerator School and at other places
Website:	https://wpw.bnl.gov/rgupta/about/
Honors and Awards:	2025 BNL Science and Technology Award
